Point 2	Activities to be carried out in the subject of Clerkship in 5 th Pharm.D/II PB and during the internship.
Discussion	The members Dr.Vithya, Dr. Geetha Jayaprakash, Dr.Inamdar raised the issue that the students need to be trained for the active intervention related activities specifically during the Clerkship class and exam more than emphasis being currently laid on case presentations which the students perform right from 2 nd year onwards in different subjects. They discussed that during clerkship exam, the students have to be assessed for their ability to apply intervention based activities which in turn will benefit them during the internship. Similarly during the internship the students need to focus on intervention activities. All such activities performed have to be documented appropriately which have to be assessed by the respective preceptors before the completion of the internship.
Decision	The members agreed on the discussion held and suggested that a common system should be implemented from the next academic year onwards for the assessment of clerkship subject. The interns need to maintain a log book of the daily activities performed as well as any specific interventions carried out during the internship and the same to be documented appropriately.
Decision of CAC	Recommended.
