**Remedial measures for Internal Assessment Marks**

The agenda was discussed in detail

All the members opined that guidelines needs to be framed by RGUHS as there has been no uniformity across institutes in the State

The suggestions given by the members are as follows:

To invite the opinion of Principals of all medical colleges regarding remedial measures for attendance and internal assessment examination.

Remedial classes to be offered to students upto 20% deficiency in theory classes/Practicals (As there would be one month between final internal assessment examination and uploading the marks, nearly 30 hours of deficiency could be corrected and hence upto 20% attendance deficiency can be offered remedial classes. However, students more than 20% deficiency should also be offered remedial classes to make up for the attendance to be eligible for Re-sit examination later)

Remedial Internal assessment examination: The members suggested that one remedial internal assessment examination theory and practical to be conducted for students who fail to get 50% marks average of three internal assessment examinations. The remedial internal examination marks will replace the least scored marks. The student who fails to get eligibility after remedial examination, will not be eligible to take the university examination. One more remedial examination should be given to them for eligibility for re-sit examination.

Appointment of examiners both internal and external well in-advance to avoid at minute struggle.

Action taken: Rotation of internal examiners for RS4 examination to be followed giving chance to all eligible staff of the department.

Action Taken: Regarding, to update the external examiners panel list by RGUHS (google form) was suggested by all

To discuss the microbiology examination pattern-paper I and paper 2

The new guidelines from NMC stands withdrawn. Hence no discussion was done

Practical examination remuneration to be remitted by RTGS, not by cheques.

  
ಕುಲಸಚಿವರು

  
ಕುಲಪತಿಗಳು

Many external and internal examiners have complained that practical remuneration cheques have not been reaching them. Hence, to revert back to RTGS mode of payment would be a better option.  
To increase the sitting fees for BOS members The sitting fees for BOS members Paramedical to be increased in par with AC members/ Senate / Syndicate members of RGUHS.

Chairman of board of super specialities welcomed all the members to the meeting Dr. Balaji Pai, Dr. Dinesh Kadam, Dr.Ramesh.K.T, Dr. Manjunath Shetty went through the paediatric Cardiology curriculum in detail and accepted the curriculum (attached the enclosure)  Dr. Balaji Pai, HOD of Nero-surgery BMCRI brought to the notice of the committee that the MCH final Examination, there is no bifurcation of syllabus between 4 theory papers which is prevalent in all other super specialities. This is leading to duplication of questions and student inconvenience.  Hence, he has suggested bifurcation of syllabus between the theory papers which is enclosed. The committee members have approved the same.

<p>Discussion and Resolution</p>	<p>It is not possible to group optional subjects in to two groups as students should be given the option to choose optional subjects as per their interest. Grouping of optional subjects would restrict their freedom to select.</p> <p>However duration of examination can be reduced by conducting exams for two subjects in one day ie. both in morning and afternoon session.</p> <p>Thus exams for all optional subjects would be completed in 06 days.</p> <p>Further subjects could be allotted in the following pattern and students could be informed well in advance so as to enable them to take an informed decision with regard to the selection of optional subjects.</p>

**8) BOS in Pharm-D in its meeting held on 18.05.2023**

<b>Agenda 1</b>	To review the panel of examiners for the practical examinations of May-June 2023.
Discussion	The Examiners panel submitted by the Pharm.D colleges were verified by the members thoroughly.
Decision	The panel was approved by the members.
<b>Agenda 2</b>	To decide about the practical examination centers and attaching the other colleges to the identified exam centers
Discussion	The number of students appearing for Practical examinations May-June 2023 was observed. As the number of students appearing for the practical examination in this schedule is less, all the members agreed and suggested for conduct of the examinations in few centres and tagging the other colleges to the selected exam centres. The probable centres and colleges to be tagged were worked out.
Decision	It was decided that based on the above list proposed by the members, the Chairman, BoS Pharm D and Dean, Pharmacy Faculty will finalise the centres and tagged colleges for practical examinations of May-June 2023 in consensus with the Registrar Evaluation.
<b>Agenda 3</b>	To decide the completion of the current academic year course and annual examination schedule.
Discussion	The members discussed the above agenda and opined that the current academic year can be continued with completion of the internal exams and the final annual exam can be held as per the calendar of events of the university.
Decision	It was unanimously decided that annual exams for the current academic year 2022-23 can be conducted along with the even semester exams of B.Pharm and M.Pharm, tentatively commencing from 4 <sup>th</sup> week of October 2023.

<b>Agenda 4</b>	Any other matter with the permission of the chair.
Point 1	Core subjects teaching in Pharm. D curriculum
Discussion	There was an observation that Pharm. D graduates working as faculty were teaching core pharmacy subjects of Pharmaceutical chemistry, Pharmacognosy, Pharmaceutics and Pharmacology. The members discussed this issue in detail. The committee noted that such incidences were very few.
Decision	The members concurred that core subjects should be taught by the faculty from the respective departments only. However few subjects like HAP, Microbiology, Pathophysiology can be taught by faculty from Pharmacology department.
Point 2	Activities to be carried out in the subject of Clerkship in 5 <sup>th</sup> Pharm.D/II PB
Discussion	Dr. Geetha Jayaprakash raised the issue that the students need to be trained for the active intervention related activities specifically during the Clerkship class and exam based on the concept of Objective structured clinical examination. The members discussed the same and suggested that emphasis in clerkship activities and exam should be more clinical intervention based rather than patient case analysis and case presentation only.
Decision	The members agreed on the discussion held. It was decided that clerkship activity assessment should be to evaluate the students' ability to perform patient centric activities during the exam based on either a live or simulated patient related activity.

Point 3 Discussion	Project work in V /II PB year of Pharm.D.  As per the apex body PCI, the Pharm.D students have to carryout a project work for a period of 6 months during V year/II PB in groups of <b>2 to 4 students and in the areas of topics as indicated in PCI regulations only.</b> The members raised a concerning point that in few colleges the project work is being conducted by individual students violating the regulations issued by PCI.  Also, it has been noted that the respective guides as internal examiner for the project work is not being permitted
Decision	The members decided that the project work by the students has to be carried out by the students as per PCI norms only <b>(in group of 2 to 4 students and in the specified area of work).</b>  The guide should have a minimum three years of teaching experience (as required to be eligible as an examiner). The respective guide should be the internal examiner for the respective group guided.

Sl. No	Clause Number	Remarks/ Clarification/ Suggestions

	<b>Decision of Syndicate:</b> Not approved. It was decided to follow Apex Body nomenclature.	
2	<b>1.2. Definitions e, read with section 6.15</b>	<p><b>Clarifications:</b> How many attempts to be allowed for qualifying? Would the benchmark for registration as dental practitioner be rigid/ flexible? IF a person does not pass NEXT and should s/he wait for another year to get her/his registration in line?</p> <p><b>Suggestion:</b> There may be one annual NEXT for PG admission and quarterly exams for license registration.</p>
3	2.3 (a,b,c) read with Part 13 Saving Clause	<p>The draft suggests that one year would be given for training.</p> <p><b>Suggestion:</b> The board feels a minimum of two years is required to train the faculty and develop human resource and infrastructure to effectively deploy the regulations.</p>
4	2.4 (a &b)	Comprehensive health care training may be feasible only internship
5	3.1.3 (d.e and f)	Since NEET takes 10+2 exam as the basic exam for eligibility, these clauses are redundant. Admission is based on NEET exams or any regulations modified from time to time by competent authority
6	3.2 selection of students	In view of large number of dental seats remain vacant after annual NEET based counselling, it is suggested that NEET should be conducted twice a year to fill up the vacant seats.
7	4.1.1 Duration of the program	Suggestion: Let the course duration be on par with MBBS as 4.3 years + 1 year internship.

ಕುಲಸಚಿವರು

8	4.2.2 course survey	A typographical error replace "Eligible" to elective Suggestion: Please add a clause that once a student selects an elective s/he may not be able to change the elective course
9	4.2.5 elective courses	The wide number of subjects mentioned in the elective course with the credit hours need to be relooked for the following reasons 1. Infrastructure, faculty e.t.c in college 2. Fitting these into 4 and half year's course durations. 3. Finding staff qualified for teaching electives like siddha unani etc.
10.	5.1.5 credit transfer	Needs more clarification regarding Academic Bank of credits
11.	5.4 credit transfer	More clarity is required on this aspect
12.	6.2.1 Scheme of examination	<b>Clarification:</b> clarify on distribution of subjects in the semester scheme as well as credit requirements. 1. Semester wise subject allowed to learn 2. Semester wise subjects for examination 3. Semester wise subjects for carry over.
13.	6.3 evaluation (ii, iii, iv, v,vi)	<b>Section ii</b> is contradictory to the minimum frequency of formative examination as mentioned in the 6.3 body paragraph. <b>Suggestion on section iii, iv and v:</b> A scenario where the student gets 60% in formative and 20% summative getting him a 80% with distinction. Hence, we request the council to retain a formula which has been suggested in the clause 6.6 where in summative exams carry 200 marks (67%) and formative exams carry 100 marks (33%).

14	<b>6.4.1 Written (Theory) Examination</b>	Maximum distribution for each type of question should be prescribed. Board suggests a maximum of 20% for each type. Also, objective type and MCQ's should be given equal representation
15	<b>6.4.2 Practical / Clinical Examination: (ii) Objective Structured Clinical Evaluation</b>	Should be restricted to general medicine and general surgery. Whereas in dental subjects since the student has already undergone clinical training on real patients the existing examination system should be followed
16.	<b>6.4.3 Viva Voce:</b>	The marks mentioned here for theory has been shown in the practical marks in table 6.1.1. This sounds contradictory. Please clarify.
17	6.7.2 For declaration of pass in a subject,	It is not clear for addition of Viva voce marks to theory in subjects other than pre-clinical prosthodontics and conservation. Please clarify and elaborate
18	<b>6.8 GRACE MARKS:</b>	A clause stating that those candidates who pass with grace marks should not be awarded distinction or considered for any ranks/ medals must be added.
19	6.10.2 HONOURS REQUIREMENT	The nomenclature for the awarding degree should be uniform as all the students undergo uniform training. However, if the student has spent additional 6 months for the respective additional electives other than what he has studied for award of normal degree, he may be considered for Honors. Similar philosophy is used by National institutes in awarding honors

**22) BOS in Physiotherapy (UG) in its meeting held on 26.04.2023**

AGENDA 1	Review of the proceedings of the BOS meeting held on 19th of August 2022.
DISCUSSION AND RESOLUTION	In the last meeting, there was a discussion about the dates for conducting regular exams. The exams were conducted as planned and the results also were out on time. There were some queries regarding practical examination schedule and also about the admission for the next Academic Year under KEA.
DECISION	The whole team congratulated the efforts put by the faculty in providing the results out on time and also conducting the practical exam smoothly. In regard to practical exams, all the colleges have asked for enough time to conduct exams as the labs should be available for them. The request has been put forward to the Exam Section. The admission date for the next academic year is expected to be earlier than last year since nursing has their own counseling this year and hence Physiotherapy counseling would not be delayed. The remaining proceedings of previous meeting of BOS was reviewed and accepted.
AGENDA 2	Discussion regarding the Exam panel for the upcoming Supplementary Exam in May 2023.
DISCUSSION AND RESOLUTION	There was a discussion on the Examiner Panel for the upcoming Supplementary exams. The colleges had not updated their current faculty list. So the University authorities were asked to send an intimation letter to all colleges to update the teacher data base so that the staff could be given exam duties as per their experience.
DECISION	The members in the meeting came up with the decision to send an intimation letter to all colleges to update their teacher data base online and also to send one copy to the university so that the duties of exam could be allotted easily as per the new faculty panel to avoid any rejections of exam duty.
AGENDA 3	Planning and updating the QP panel and scrutiny committee for the upcoming exams in order to avoid any errors in the QP.

  
ಕುಲಸಚಿವರು

  
ಕುಲಸಚಿಗಳು

DISCUSSION AND RESOLUTION	The making of the QP panel was discussed with the concerned authority of the University. It was decided that the QP setters would be from Mangalore, Mysore and other zones of Karnataka whereas the scrutiny committee would be from Bengaluru as it was easy to commute and do the work smoothly. The QP Authority asked the members to plan and make a blueprint of QP so that there would not be any much error during the exam.
DECISION	As per the conversations with the officials of QP, it was decided to make the QP setter panel from outside Bengaluru and scrutiny committee within Bengaluru. The nodal centre was selected from Bengaluru. And it was strictly instructed to the QP section to make sure that if any error was there in the QP it should be informed to the Exam Centers within first 15 minutes of the exam itself so as to avoid any further issues as the Question numbers are already printed in the answer booklets and students would not be given any extra space to write for corrections. The members decided to conduct a small workshop for QP Setting and also to have a meeting just for the making of blueprint of QP in the month of July.
AGENDA 4	Review of the last Practical Examinations Panel and Centers.
DISCUSSION AND RESOLUTION	There was a discussion on the Panel of practical examiners as there were some changes done consistently in the panel even after the names had been assigned to the centers. To avoid such issues in the next exams the panel has to be updated along with the subjects taught by that teacher and his years of experience. There were also some miscommunications within the colleges tagged to the respective centers and the colleges were not been informed priorly about the examination. Since the number of colleges and also the strength of students have been increased it was told that few extra centres should be added for conducting practical exams.
DECISION	The panel updation has to be done one month before the exams and it is the responsible of all the Principals of the colleges to look into this and also make sure the teachers have updated their subjects handled. The copy of new updated faculty list has to be sent to the university as well.

  
ಕುಲಸಚಿವರು

  
ಕುಲಪತಿಗಳು

	And all the practical centers have to inform all the tagged colleges about the dates of exam well in advance. New exam centres will also be added to conduct the exam timely. The colleges were informed to avoid any rejections of duty as it would be difficult to arrange new examiner within such short time.
AGENDA 5	Discussion on the academic program for the next academic year with admissions starting from June and to plan the calendar of the year.
DISCUSSION AND RESOLUTION	The date of commencement of classes for the next academic year would be decided after the dates for KEA document uploading. Tentatively, it is expected that this year the last date of admission could be by the end of December but again it would be decided after the KEA dates. The management students are expected to start the classes by end of September.
DECISION	The university has asked the KEA to speed up the process this year so that the academic year can be planned accordingly. The tentative date for commencement of classes in the calendar of the year would be in October.
AGENDA 6	Any other matters with the permission of the chair.
DISCUSSION AND RESOLUTION	(i) There was a draft of the syllabus with some weightage added to the topics which is still pending by the university to be approved. The BOS must make a follow up on that draft which is in CDC so that it can be approved. (ii) A follow up meeting on making of the blue print for the QP has to be planned immediately after the supplementary exams. So as the blue print if made ready can be sent to all the QP setters.
DECISION	(i) The BOS has approached the CDC but due to sudden changes in the authorities at CDC the file/draft is still pending there. Thorough follow up has to be done at the CDC of University so that it would be approved. (ii) It was decided to keep a meeting in July for the QP Blue print and to make the committee members for the same as per the subjects.

2.	<p>To finance Section: a) Why the digital valuation remuneration was delayed for nursing February 2023...? Why till the digital valuation remuneration bills Jun 2023 exams pending even after declaration results...?</p>	<p>a. Every effort is being made at Finance Section to clear off the bill as early as possible by utilising the available insufficient man power. But, unfortunately since February 2021 to till date Finance Section has lost five (05) important case workers / Officers due to one or the other reasons. Many requests are made to the administration to provide</p>

		<p>the sufficient staff, which is not met with till date. If at all, there is any delay in catering the service, it is only because of shortage of sufficient man power and abundant work load in FINANCE SECTION. Even Finance Officer is not provided with Personal Assistant. Assistant Registrar, Finance, herself is working as Personal Assistant along with some other hectic schedule.</p> <p>Administration has to address the further issues.</p>
	<p>b)What are the measures taken till dated for the RTGS amount returns and Cheques returned to RGUHS...? Still how many days those faculty should wait for that remunerations..? Faculties are now reluctant conduct university assignments because of non receipt of remunerations.</p>	<p><b>b.</b> With the concern of catering the service, Finance Section tried it's level best to upgrade the present Finance Management System. So only, recommended to call for the Tender and handover the work of upgradation to an Agency. However, this is not timely addressed by the administration for one or the other reason. If this would have been done, there might be very less number of cheque returns / RTGS returns, because, payment should have happened through online, after the confirmation of the account details by the examiner itself through online.</p> <p>One agency is entrusted with the job of upgradation of Finance Package very recently, which may end up with some expected good results.</p> <p>Any how, some efforts are being made to address the returned cheque / RTGS issues by repaying them after confirming the account details through files by the Registrar (Evaluation). A separate Register is maintained for this purpose in the Finance Section.</p> <p>Administration has to address the further issues.</p>

	<p>System Solution in RGUHS...? Since two years same information was given to the senate without any implementing it why..? <p>5.</p>	<p>As there is an existence for KAS officers have KAS officers Welfare Fund in Karnataka, For Advocates, Lawyers Welfare Fund, Karnataka and for Govt. Teachers, Teachers Welfare Fund, Karnataka and these are Run by Government appointed IAS and KAS Officers, then, why can't we have ;  a) <b>"A faculty welfare fund"</b> under RGUHS for all affiliated faculties of RGUHS, Bangalore.</p>	<p>The extract of the proceedings of the meeting held on 22.06.2021 of Syndicate Sub-Committee regarding (a) &amp; (b) is reproduced hereunder. (Copy enclosed).  In any department of the Government, to create any welfare fund, contributions are made from the employees of that department.  Here, in the affiliated private colleges, employees are not from Government and unlike Government employees there are no rules for recruitment, service and retirement for private employees. Till date Government of Karnataka has not created any such fund for the private employees who have not at all contributed towards such welfare fund and also creating such welfare fund for private employees by RGUHS is out of rule. Hence, this scheme is not feasible. Since private college collect fees/fund from the students, it is their duty to look after the welfare of their employees also.</p>

<p>b) <b>Group Insurance</b> Scheme for teachers of affiliated institutions.</p> <p>Why RGUHS is reluctant for the welfare of its affiliated faculties...?</p>	<p><b>With regard to Group Insurance Scheme</b>, the Government, till date, has not made any such insurance called Group Insurance Scheme to any private employees. Since the private colleges collect fund from the students, it's their duty to look after their employees. RGUHS has no role to play in the Group Insurance Scheme of private employees.</p> <p>In both the cases, i.e. creation of welfare fund and Group Insurance Scheme, there is no budgetary provisions at present.</p> <p>The same was also communicated in the ATR sent on 30.05.2022. <p>1. Why are audit objection letters related to fee dues of various colleges been issued repeatedly even after clarifications and submission of documents by colleges?</p>	<p>The Internal Audit wing of Finance Section has been sending the pending dues list to the concerned authorities, Faculty-wise. The letter regarding the same might have been sent to the colleges by the concerned faculties. The remittal details of dues might have been submitted by the colleges to the concerned faculties. But unfortunately, the concerned Faculties are not putting up the files on time for Internal Audit through proper channel. It is observed by the Finance Section that, even the credit confirmation related to 2013-14 onwards specially many files related to 2020-21 are being sent now or sent in the recent past. Even till date the files related to some of the colleges are not at all sent to Finance Section for Internal Audit. It's the duty of the concerned faculties to send the files for credit confirmation and for Internal Audit, after getting the fees / dues remitted by the colleges concerned. For this, Finance Section is not answerable. The concerned</p>

3.	Why is it compulsory for a phd guide to have a publication in RGUHS journals?	<p>One of the eligibility criteria while applying for PhD guideship as stated in the latest PhD ordinance of RGUHS is 'that one of the publication may be in the RGUHS Journals'. <b>We are in the process of getting RGUHS Journals indexed.</b> In the meeting of the Editorial Board of e- Journals held on 28.06.2023, the Editors in Chief expressed their concern over not getting sufficient number of articles for publication in RGUHS Journals.
