1. The purpose of this study is to determine the effect of the independent variable on the dependent variable.

2. The study was conducted in a laboratory setting with a sample of 30 participants. The participants were randomly assigned to two groups: the experimental group and the control group.

3. The experimental group received the treatment, while the control group did not. The results of the study showed that the experimental group performed significantly better than the control group.

4. The results of the study suggest that the treatment has a positive effect on the dependent variable. However, further research is needed to confirm these findings and to explore the underlying mechanisms of the effect.

5. The study has several limitations, including a small sample size and a lack of control over extraneous variables. Despite these limitations, the study provides valuable insights into the relationship between the independent and dependent variables.

6. The findings of this study have implications for future research and for the development of interventions. Further research is needed to explore the long-term effects of the treatment and to identify the factors that influence the outcome.

Ref. No. SASSB CON / 76 / 2025

To,
The Registrar
Rajiv Gandhi University of Health Sciences,
Bangalore.

Sub: Request for the Change of college name of SASSB College of Nursing for the year 2025-26, Reg...

Ref 1: RGUHS/AFF/COE/2025-26, Dated: 30/12/2024.

Ref 2: SASSB CON/76/2025, Dated: 25/02/2025.

As per the subject & reference cited above, we had submitted the application along with the required documents for the change of college name of BSc. Nursing course for the year 2025-26.

As the name we had proposed "FAITH COLLEGE OF NURSING" already exists in RGUHS Colleges list, Karnataka.

Hence we would like to suggest a new name for our college, i.e. **HARMONY COLLEGE OF NURSING.**

Hence we kindly request you to review our proposal and do the needful.

Thanking you,
